

A photograph of a large, classical-style building with a portico supported by columns. The building is light-colored with a red base. A large red banner is overlaid on the image, containing the university's name in white text. In the foreground, there are steps leading to the entrance and a display board on the left.

VYATKA STATE AGROTECHNOLOGICAL UNIVERSITY (VYATKA SATU)

Vyatka SATU is the driver of regional development of Kirov region

445
employees

the teaching staff consists of **187** lecturers, including **33** doctors of science and **118** candidates of science.

The academic degree holders rate is 84%, 30% of them are doctors of science.

3624
students
in total

- 1628 full-time students
- 1333 part-time students
- 349 students attend evening classes
- 280 college students
- 34 post-graduate students

30

The University ranks 30th in the Ranking of Agricultural Universities «Univer.Expert» in 2022.

4

The University ranks 4th in the National Aggregated Ranking of Agricultural Universities of the Volga Federal District.

Educational Infrastructure

Institute of children`s additional education

35 additional child education programmes (for children of 2-17 years old)

College

9 programmes of the secondary vocational education

Bachelor's programme

15 programmes

Specialist's programme

3 programmes

Master's programme

13 programmes

Post-graduate programme

42 programmes

Additional professional education

35 programmes of advanced training, 10 programmes of professional retraining, 18 programmes of professional training

Infrastructure for Foreign Students

Museum Complex

Centre of Additional Professional Education

Students` hall

Scientific Library

Driving School

Reading Hall

Scientific and Research Infrastructure

Organic farming centre

Centre of competence in game management, fishing and ecotourism

Centre of collaborative use of scientific equipment «Agrobiotechnology»

Engineering centre

Centre for innovative technologies in food processing

Centre of competence «Digital Technologies in Agriculture»

Scientific schools

- Use of alternative fuels, improvement of technology and machine designs (5)
- Mechanization of processes in husbandry and crop production (2)
- Selection and genetics (3)
- Microbiology and biotechnology (2)
- Processing technology (1)
- Farming and reclamation of arable land (1)
- Veterinary (3)
- Biology and ecology (6)
- Economics of sustainable development (4)
- Humanitarian sciences (4)
- Game management (1)

Consortiums of Vyatka SATU

The scientific and educational consortium "Innovative technologies in the agro-industrial complex and environmental management"

- applied scientific research in the field of microbiology, cell biology and digital technologies;
- development and creation of new technologies;
- interaction in the field of realizing joint educational programmes, as well as the programmes of additional professional education.

The Consortium "Adaptive Feed Production System for Sustainable Development of Dairy Farming"

- development of competitive domestic feed production technologies that ensure an increase in the production of high-quality feed, protein-vitamin mineral concentrates, premixes, vitamins, etc.;
- development and implementation of practice-oriented educational technologies for training specialists in the areas of maintaining the sustainable system of dairy farming.

The E-Library Network

- unites a number of network electronic libraries in various specialized areas (agricultural, pedagogical, technical, etc.);
- one single network of scientific materials for the project participants.

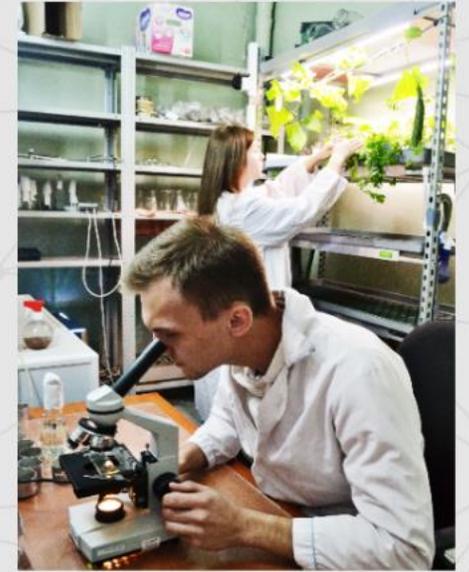

"Innopolis University"

- training of specialists in the field of digital economy;
- training of specialists having competencies of information and cross-cutting technologies in different subject areas.

THE FACULTY OF AGRONOMY

35.03.04 Agronomy

35.03.07 The technology of production and processing of agricultural products

THE FACULTY OF BIOLOGY

06.03.01 Biology

Specializations:

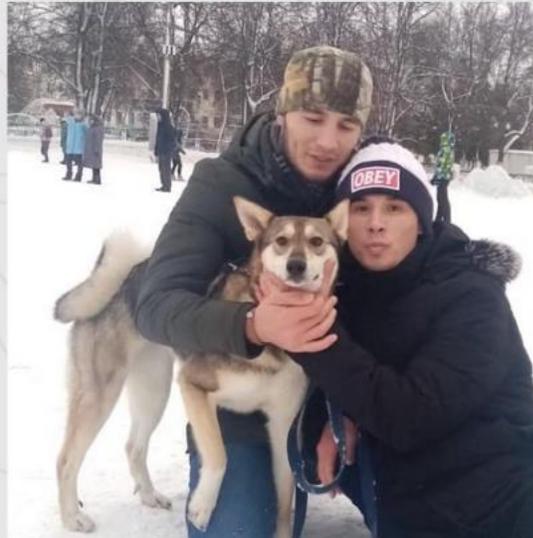

- game management;
- bioecology;
- biological resources

36.03.02 Zootechnics

Specializations:

- cynology;
- livestock production technology;
- breeding, genetics and selection of animals

THE FACULTY OF VETERINARY MEDICINE

36.05.01 Veterinary Medicine

THE FACULTY OF ENGINEERING

35.03.06 Agricultural engineering

23.03.03 Use of transport and technological machines and complexes

20.03.01 Technosphere safety
Specialization:
Fire protection

THE FACULTY OF ECONOMICS

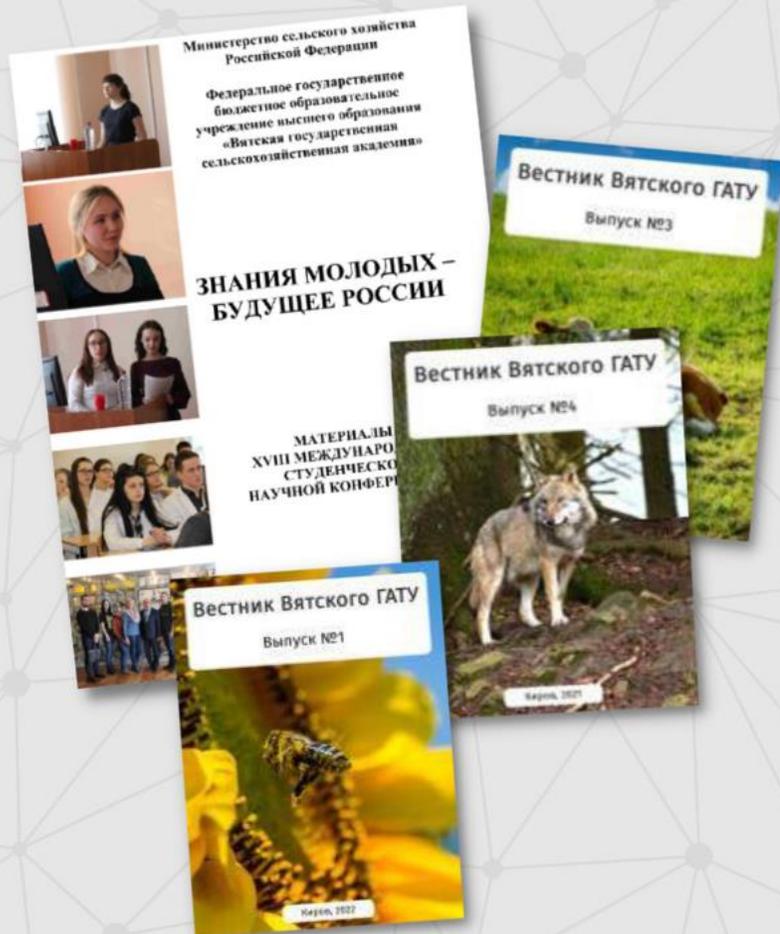

38.05.01 Economic security

38.03.01 Economics

38.03.02 Management

Participation of foreign partners, teaching staff and students in the events organized by Vyatka SATU

- The annual and anniversary conferences, forums and teleconferences, olympiads and quizzes (including online format).
- Publication of materials in conference collections;
- Quarterly publishing materials of the journal "Bulletin of Vyatka State Agrotechnological University".
- For the 90th anniversary of the Academy, a **collective monograph** has been published.
- The Annual International Student Competition "**Business Idea**" (including online format).
- Working visits and signing agreements on mutually beneficial cooperation of the Universities.
- Advanced training courses (including online format);
- Joint grants for scientific research.

International Cooperation

Nowadays there are **140** students from **14 countries** (Egypt, Senegal, Sudan, Guinea, the Democratic Republic of the Congo, Belarus, Uzbekistan, Tajikistan, Turkmenistan, etc.) at Vyatka SATU.

Academic Mobility and Realization of Cooperation Agreements with the Republic of Belarus

The round table "Expanding cooperation in training specialists for the agro-industrial complex of Kirov region" was held with the delegation of Gomel region.

The staff of the Faculty of Engineering had advanced training at the JSC "Minsk Tractor Works".

The Brand Auditorium BELARUS has been opened with the support of the JSC "Minsk Tractor Works" in Vyatka SATU.

Additional Education Course «Russian as a Foreign Language»

Foreign citizens training began in 2015.
It was a group of 25 students from
the Democratic Republic of the Congo.
Over 100 students have already completed
this course.
Nowadays they study at Universities all over
the Russian Federation.

Additional Education Course «Russian as a Foreign Language»

Programme for the students
from CIS countries
“Winter School of the Russian
Language and Culture”

Summer School
for foreign students,
dedicated to the International
Youth Day

Scientific Activities of Foreign Students

- Project activities
- Content generation of materials for defending bachelor's and master's theses
- Participation in students' conferences
- Participation in olympiads, quizzes and competitions

We organize different meetings of students with the region`s authorities

Cultural and Educational Programme for Foreign Students. Participation in the Region`s festivals

Cultural and Educational Programme for Foreign Students

The Annual Students` ball

Exhibition "Agrosalon 2022"

Cultural and Educational Programme for Foreign Students. Visiting Museums and Sights of the City

Sports for Foreign Students
